

DOOR

We will enable you to open the to the **BUILDING WORLD**

Prague, 27 September 2005

Dear Business Partners,

The 16th year of the Trade Fair has just finished, and I hope that you have managed to achieve at least a major part of the targets with which you have entered the Prague Exhibition Centre this year. All ABF team members have prepared the Trade Fair responsibly and tried to meet your requirements as much as possible. The satisfaction of all the Trade Fair participants was surely supported by a general improvement of the Exhibition Centre quality as well. The beautiful Indian Summer has virtually poured golden colours over the Prague City and significantly contributed to the good temper. Many accompanying programmes took place in historical buildings of the hundred-spined Prague panorama. The fast survey carried out in the course of the Trade Fair furthermore results in an optimistic fact – a significant increase in the number of visitors with decision making powers. The exhibitors surely managed to use this fact to establish or prepare good business deals. I am pleased to state that the Trade Fair benchmark has been raised higher again – naturally with the help of exhibitors. And I cannot help stating that the quality standard of this event is surely at least a European one.

Considering the recommendations of a majority of members of the Honorary Committee of the Trade Fair we have selected the following **main topic** for the year 2006:

CZECH BUILDING INDUSTRY WITHIN THE FRAMEWORK OF THE EUROPEAN UNION.

It was in 2004, when we – carefully and with some fear – accessed to the European Union. In 2005 we were looking around a little bit within the European Communities and we acquired the necessary and mainly justified self-confidence. Our products and technologies, which give rise to excellent building works designed by leading architects and implemented according to the designs drawn up by "Czech brains" are surely attractive enough to be offered to investors in the upcoming years as well.

And that is why we are ready to declare:

FOR ARCH 2005 is a history!
Long live FOR ARCH 2006!

Highlighted topic:

FACADES - WINDOWS - DOORS - ROOFS
SMALL BUILDING MACHINERY

**I am looking forward to meeting you on 19 – 23 September 2006
at the PRAGUE EXHIBITION CENTRE IN LETŇANY!**

Ing. Miloslava Veselá
Chairperson of the Board of Directors and Managing Director of ABF, a.s.

HONORARY COMMITTEE OF THE INTERNATIONAL BUILDING TRADE FAIR

Members (in an alphabetic order):

Ing. Rudolf Borýsek	Vice President of the Association of Entrepreneurs in the Building Industry of the Czech Republic
Dr. Ing. Jaromír Drábek	President of the Economic Chamber of the Czech Republic
Ing. Josef Fiřt	Chairman of the Energy Regulatory Office
Ing. Arch. Oleg Haman	Chairman of the Society of Czech Architects
Ing. Bořivoj Kačena	Vice President of the Association of Entrepreneurs in the Building Industry of the Czech Republic
Ing. Petr Kučera, CSc.	Chairman of the Association of Testing Laboratories of the Czech Republic
Ing. Václav Mach	Chairman of the Czech Chamber of Authorised Engineers and Civil Engineering Technicians
Ing. Václav Matyáš	President of the Association of Entrepreneurs in the Building Industry of the Czech Republic
Ing. Jaroslav Míl, MBA	President of the Confederation of Industry of the Czech Republic
Prof. Ing. Petr Moos, CSc.	Faculty of Transportation Sciences of the Czech Technical University in Prague
Doc. Ing. Miloslav Pavlík, CSc.	President of S.I.A.
Ing. Jiří Plíčka	Chairman of the Foreign Committee of the Czech Chamber of Authorised Engineers and Civil Engineering Technicians
Ing. Jan Slanina	Deputy Minister for Regional Development
Ing. Jan Škoda	Director of the Centre of Common Activities of the Academy of Sciences of the Czech Republic
Ing. Arch. Jan Štípek	President of the Czech Chamber of Architects
Doc. Ing. Zdeněk Trojan, CSc.	Director of the Technical Section of the Prime Minister of the Government of the Czech Republic
Ing. Karel Tureček	Deputy Minister of Trade and Industry of the Czech Republic
Jan Wiesner	Chairman of the Association of Czech and Moravian Production Cooperatives
Prof. Ing. Jiří Witzany, DrSc.	Rector of the Czech Technical University in Prague
Ing. Svatopluk Zídek	President of the Czech Society for System Integration

FOR ARCH 2006

17th international building fair

FOR TECH 2006

12th international fair of building machines and mechanization

FOR COMPUTER

9th specialized fair of hardware, software, replacement technology, information systems and technology for designing and building

FOR VERTICAL & FAIR LIFTING

12th international fair of lifts and lifting technology

GENERAL TOPIC:

- Czech Building industry within EU

HIGHLIGHTED TOPICS:

- Facades-Windows-Doors-Roofs
- Small Building Mechanization

FAIR NOMENCLATURE

Legend:

FOR ARCH	- untagged
FOR TECH	- T
FOR COMPUTER	- C
FOR VERTICAL-FAIR LIFTING	- V

1. BUILDINGS

1.1. PUBLIC SERVICES

Waste services buildings • Water works • Water supply facilities • Engineering buildings • Buildings for power engineering and gas industries • Buildings for the heat supply industry • Transport buildings • Treatments of open areas • Ecological buildings • Forestry buildings

1.2. RESIDENTIAL BUILDINGS AND BUILDINGS FOR SHORT-TERM ACCOMMODATION

Apartment buildings • One family houses • Other buildings for long-term accommodation • Buildings for short-term accommodations • Houses and cottages for recreational purposes • Attic flats and extensions

1.3. PUBLIC BUILDINGS

Administration buildings • Buildings for education, training and research facilities • Buildings for physical education and sports • Buildings for culture and education facilities • Buildings for health service facilities • Buildings for shops and services • Buildings for transport and communication facilities

1.4. BUILDINGS FOR INDUSTRIAL PRODUCTION

Production plants for building materials • Foodstuff production plants • Chemical plants • Textile plants • Engineering plants

1.5. BUILDINGS FOR AGRICULTURAL PRODUCTION

Construction for animal production facilities • Construction for vegetable production facilities • Drainage and irrigation

1.6. BUILDINGS FOR STORAGE

Cooling and freezing facilities • Silos • Tanks

1.7. SMALL BUILDINGS

Mobile WCs

1.8. CONSTRUCTION SITE EQUIPMENT

2. PRODUCTS AND EQUIPMENT FOR BUILDINGS

2.1. FOUNDATIONS AND SUBSTRUCTURE

Earth stability assurance • Substructure insulation • Foundation • Deep foundation • Other parts of substructures

2.2. STRUCTURES

Construction systems • Construction systems • External wall • Internal walls and partitions • Ceiling constructions • Stairs and ramps • Chimneys and shafts • Roofs and roof beams

2.3. COMPLETIONS

Windows • Doors (incl. turnstiles and Security doors) • Equipment for windows and doors • Floors • Completions of roofs • Operation barriers • Railings • Building fittings

2.4. SURFACES

Surfaces of external and internal walls (facing bricks, renders, cladding, foils, paints, sprays, adhesives, reinforcement meshes under cladding) • Suspended ceilings • Floor finishes (incl. carpets, floating floors, paints, adhesives, floor and stair skirtings) • Roof coverings

2.5. TECHNICAL EQUIPMENT OF BUILDINGS

Internal drainage • Water supply piping • Gas supply • Heating • Ventilation, air conditioning • Fixed fire fighting equipment • Refuse removal

2.6. ELECTRICAL INSTALLATION

Electrical equipment (transformers, pylons for power distribution, switchboards) • Components for electrical installation and electrical appliances • Communications equipment

V Transportation equipment • Passenger lifts • Freight lifts • Freight/passenger lifts • Special lifts • Conveyors, travelators, moving pavements • Lifts and platforms for persons with impaired mobility • Ski-tows and funiculars • Components and accessories of lifts • Pneumatic transport

Metering, regulation and control • System technology of buildings • Cable systems • Systems for management and administration • System technology of renovation of individual apartments • Lightning rods and earthing

2.7. EQUIPMENT FOR SPACES

Equipment for external spaces (for transportation, for signposting, for external spaces, for children playgrounds) • Saunas and swimming pools • Entrance equipment • Equipment for special purpose spaces • Kitchen fittings including furniture • Equipment for bathrooms and WCs • Laundry equipment • Saunas • Furniture • Small items for flats

2.8. TECHNICAL EQUIPMENT FOR BUILDING SITES

Mechanical equipment for public utilities • Mechanical equipment for public buildings • Mechanical equipment for industrial buildings • Mechanical equipment for agricultural buildings • Mechanical equipment for stores

3. BUILDING MATERIALS

3.1. INORGANIC MATERIALS

Stone and stone products • Concrete and mortar products (mixtures, components of concrete, roof tiles, masonry blocks, pipes, products of light concrete, mortar mixtures, plaster mixtures) • Fired products (bricks, ceramic components and slabs, roof tiles, floor and wall tiles, pipes, sanitary ceramics, refractory materials, chemically resistant products) • Metals and metal products • Glass, glass fibres and glass fibre products • Mineral wool • Gypsum honeycomb panels • Non-fired masonry materials (porous concrete, calcium silicate bricks, gypsum bricks, blocks)

3.2. ORGANIC MATERIALS

Timber and products of wood • Organic and synthetic fibrous materials • Plastics and plastic products • Cork and cork products

3.3. FORMLESS PRODUCTS

Fillers • Binders • Paints • Sealing products, adhesives • Ingredients and admixtures

3.4. INSULATION MATERIALS AND PRODUCTS

Thermal insulating products • Proofing against water and humidity • Sound insulating products • Insulation against vibrations • Special insulation

3.5. OTHER SHAPED PRODUCTS

Fixing and jointing products • Sealing products

3.6. MEDIUMS

Electric energy • Water • Gas • Petroleum • Thermal energy

4. COMPUTER TECHNOLOGY IN BUILDING INDUSTRY

4.1. HARDWARE

4.2. SOFTWARE

CAD systems • Software for technical calculation • Software for budgeting and economic calculation • Graphic information systems

4.3. DATABASES AND INFORMATION SYSTEMS

4.4. INTERNET

General portals • Sector portals • Electronic market places • Internet shops • Services on the Internet • Special applications on the Internet

4.5. REPRODUCTION AND OFFICE TECHNOLOGY

5. TECHNICAL SECTORS

5.1. BUILDING PHYSICS

Building mechanics • Elasticity • Acoustics • Thermal technology • Light • Air flowing • Hydraulics and hydrology

5.2. UTILITY CIVIL ENGINEERING WORK

5.3. BUILDING CONSTRUCTION

5.4. ARCHITECTURE AND URBANISM

5.5. BUILDING GEOLOGY

5.6. GEODESY

5.7. TECHNOLOGY OF CONSTRUCTIONS AND BUILDING WORKS

5.8. ECONOMICS

5.9. BUILDING LAW

6. BUILDING MACHINES, EQUIPMENT, AIDS, APPLIANCES

6.1. BUILDING MACHINERY, EQUIPMENT INCLUDING AIDS FOR:

- for ground works • - for public utilities • - for production, transport and laying of concrete mixes • Tools, hand tools, appliances • Refuse chutes • Shuttering and formwork • Scaffolding • Sheet piles

6.2. TRANSPORT MACHINERY AND EQUIPMENT

Transport facilities • Machinery for moving materials • Building lifts and winches • Working platforms and cradles • Cranes • Utility vehicles • N1 automobiles • Passenger cars

6.3. OTHER MACHINERY, EQUIPMENT, AIDS AND APPLIANCES

Land measuring equipment, including laser aids

6.4. PROTECTIVE AIDS

6.5. MACHINES FOR THE PRODUCTION OF ENERGIES

Equipment for production of energy on building sites • Machinery for heat productions • Machinery for pressurised air productions

7. BUILDING ACTIVITIES

7.1. BUILDING WORKS - HSV

Earthwork • Laying of pipeline systems • Concrete pouring works • Iron fitting works • Mason's works • Bricklayer's works • Insulation works • Structural strength assurance • Maintenance of humid masonry

7.2. BUILDING WORKS - PSV

Roofer's works • Tinsmith's works • Joiner's works • Blacksmith's and locksmith's works • Glazing works • Treatment surface works • Plumber's works • Electrical installation works • Welding works

7.3. MAINTENANCE, RENOVATION AND MODERNISATION

Maintenance of finished constructions and structures • Facility condition investigation • Renovation of monuments • Renovation of panel buildings

7.4. DEMOLITION

7.5. FOUNDATION OF BUILDINGS

7.6. CONSTRUCTION OF UNDERGROUND FACILITIES

7.7. ENVIRONMENT-FRIENDLY BUILDING TECHNOLOGIES WITH LOW ENERGY DEMANDS

Family houses made of wood • Low energy consumption buildings • Passive buildings • Other construction of sustainable building technologies

8. PROTECTION OF CONSTRUCTIONS AND REQUIREMENTS ON CONSTRUCTIONS

8.1. PROTECTION OF STRUCTURES AGAINST:

effect of chemicals • biological influences • climatic conditions • seismic influences • electrical influences including lightning • explosion hazard • fire hazard • radiation and magnetism

8.2. REQUIREMENTS ON BUILDINGS FROM THE VIEWPOINT:

children • persons handicapped and with defective senses • care for national monuments • protection of the environment • work safety and health protection • high consumption of energy

9. SERVICES

9.1. STATE ADMINISTRATION

Central authorities • District authorities • Local authorities • Municipal authorities • Building authorities

9.2. BUILDING ASSOCIATIONS, UNIONS, CHAMBERS

9.3. BANKS AND SAVING BANKS

9.4. INSURANCE COMPANIES

9.5. STANDARDISATION ACTIVITIES

9.6. RESEARCH AND DEVELOPMENT

Scientific institutes • Laboratories

9.7. ASSESSMENT

Assessment - of designs • Assessment - of constructions • The testing line

9.8. EXPERTS' ACTIVITIES

Court experts • Expert's opinions, audits • Assessment, including real estate

9.9. DIAGNOSTIC ACTIVITIES

9.10. EDUCATIONAL AND INFORMATION ACTIVITIES

Schools • Organisation of conferences and seminars • Organisation of specialised courses and training • Exhibitions • Information activities • Consultation activities

9.11. BUSINESS ACTIVITIES

Wholesale activities • Retail activities • Foreign trade • Representation of foreign firms

9.12. LENDING AND LEASE

Leasing

9.13. MARKETING

Price advisory services • Investigation and marketing research

9.14. REAL ESTATE ACTIVITIES

9.15. GEODETIC ACTIVITIES

Surveying of constructions

9.16. PROJECT DESIGN

Urbanism • Architectonic designs • Designing of renovations • Civil engineering construction designing • Building construction designing • Designing of indoor premises • Structural analysis computations • Budgeting

9.17. SPECIAL WORK

Work in heights • Work of art

9.18. ENGINEERING ACTIVITIES

9.19. DEVELOPER ACTIVITIES

9.20. WASTE PROCESSING

Refuse disposal • Refuse collection • Waste recycling

9.21. TRANSLATORS' ACTIVITIES

9.22. ADVERTISING ACTIVITIES

Promotion materials FOR ARCH 2003

9.23. PUBLISHING ACTIVITIES

9.24. FACILITY MANAGEMENT

After the receiving your Binding Application we will send you a confirmation of its registration and an advance invoice for the area leased. Then you will receive the floor plan of the Fairs (place allocation arrangement) with the marking of the location of your area, the Order Catalogue of Services containing orders of the

The Exhibitor Registration Fee is CZK 4000 (All prices are stated without VAT)

We hereby declare that we have made ourselves familiar and agree, without exceptions with ABF, a.s. preconditions for Participation on the FOR ARCH 2006 Fairs, which form an integral part of this Application. We undertake to settle all the advance invoices and the final invoice within their due terms. We take for our information that all prices are given without VAT. We undertake to pay all Advance Invoices and also the Final Invoice.

place, date _____

stamp, signature _____

Note: The application is only valid when the place, date, stamp and signature are given.

Article I. - PARTICIPATION AT THE FAIRS AND ASSIGNMENT OF AREAS

The basic precondition for the participation at the Fair is the delivery of the properly completed Binding Application to ABF, a.s. (hereinafter referred to as ABF only) by the closing date and the payment of the advancement for the required area within the due term stated in the invoice. After the receiving of the Binding Application, ABF will send to the Exhibitor a confirmation of its receipt (this event will establish a contractual relationship between ABF and the Exhibitor), and an advance invoice for the exhibiting firm and for the amount as follows:

- a/ - 7% discount from the ordered and reimbursed area till December 31, 2005
- b/ - in the case of Applications evidently delivered to ABF by mail or in person from January 1, 2006 till March 31, 2006 inclusive - 60 % of the price of lease for the ordered area and Exhibitor's Registration Fee in full amount. The remaining part of the area lease amounting to 40% of the total price is due for payment in May 2006 on the basis of an invoice issued.
- c/ - in the case of Applications evidently delivered to ABF after April 1, 2006 inclusive - 100 % of the price of lease for the ordered area.

After the payment of the invoices and final processing of applications, the Exhibitors will receive a raster of exhibition areas with the marking of their allocated places. **ABF reserves the right to reduce the ordered area, to change its shape and location - the order of the participation is binding for the Exhibitor also in this case.**

The advance invoice for the ordered services will be sent before the beginning of the Fairs and its full payment will be a precondition for the beginning of the assembly of the exposition. The final invoice including VAT and deduction of advances will be sent after the finishing of the Fairs.

If the Exhibitor fails to settle the charges for the area lease and/or the Exhibitor's Registration Fee in full amount and due term, ABF will confirm the allocation of the area lease to another applicant without the original Applicant being allowed to claim from ABF for possible expenditures incurred.

If the confirmed area is not available to the Exhibitor for reasons caused by the Organiser of the Fair, the Exhibitor is entitled to the reimbursement of the lease charge paid. The Organiser will not accept and will not indemnify any claims for damages which the Exhibitor could have incurred for this reason.

Article II. - TERMS OF PAYMENT

All prices are stated without VAT.

Basic price of the lease and Registration Fee include:

- Lease for the area during the assembly, Fairs and dismantling
- Insertion into the Fair Catalogue to the extent of data stated in the Order of Registration into the Catalogue
- Insertion into the orientation system of the Fairs
- Five Exhibitor's Cards for the firms with an ordered area up to 30 m²
- One Exhibitor's Card for every 10 m² (including a part of this area) exceeding the area of 30 m
- Assembly/Dismantling Cards for the Working Teams
- Cards for free entries into the area during the assembly and dismantling works (during the assembly and disassembly the parking time in the area is limited - the vehicle entry is allowed against depositing a security)
- Fair Catalogue
- Free registration in the Building Information System
- Invitation to the common party

Basic price of the lease and Registration Fee do not include:

- External walls of the stand, nor any other equipment of the stand, nor the walls of the neighbouring stands.
- Other records about the firm - i.e. branch offices, divisions, business representations, etc.

For each of the other firms which the Exhibitors will present in their expositions (by the presentation of exhibits, with an advertisement panel, company logo, commercial name, folders, video programmes, etc.) the Exhibitor is obliged to pay the Co-exhibitor's Registration Fee. The firm properly registered in this way will be presented in the Fair Catalogue to the full extent as the Exhibitor. **In the case of any breach of this principle the Exhibitor will be obliged to pay the Co-exhibitor's registration Fee in a double amount during the Fairs.**

Cancellation Conditions

ABF will retain the below stated percentages of the price of fulfilment, depending on the term of possible cancellation of the Binding Application:

- 20 % on the cancellation of the Binding Application in the term from April 8 to April 30, 2006 inclusive
- 40 % on the cancellation of the Binding Application in the term from May 2 to June 30, 2006 inclusive
- 80 % on the cancellation of the Binding Application in the term from July 1 to August 9, 2006 inclusive
- 100 % on the cancellation of the Binding Application in the term from August 10, 2006 to the beginning of the Fairs

The Cancellation Conditions shall apply to the cancelled areas as well.

The firm, whose Binding Application for Participation has been delivered to ABF, will be obliged - in the case of cancellation of its participation or non-participation at the Fair without any official cancellation (100%) - to settle the cancellation fees even in the case that it has not settled the advance invoice or any other invoice.

Any cancellation of its participation must always be made in writing. Registration Fees shall be forfeited in full amount, regardless to the term of the cancellation of the Binding Application or in the case of non-participation without cancellation.

Article III. - EXHIBITION AREA

ABF leases:

- indoor exhibition area without any equipment, with possible power supply, water pipeline, sewerage, telephone and cleaning facilities on the basis of the Application. **The minimum depth of the expositions is 3 m.** Minimum sizes of the exhibition areas are stated in the Binding Application for the Participation of the firm. **The expositions whose depth does not exceed 4 metres cannot be higher than 250 cm.**
- outdoor exhibition area on the dedicated free areas of the Exhibition Centre. Minimum areas of the expositions situated on the outdoor area are 4 x 3 m, i.e. 12 m² or 20 m (roof over the stand), respectively.

If the exhibiting firm itself does not provide for the stand or if it does not order its erection by ABF, it will have only the ordered exhibition area without borders at its disposal. The architectural concept in the exhibition halls counts on the implementation of the classical rectangular exhibition raster, within which the following exhibition areas will be available:

- row areas with free front side
- corner areas with two open sides - along which the visitors walk
- U-shape areas (front) with three open sides - along which the visitors walk
- island areas where all of the four sides are free.

Article IV. - SAFETY

The Exhibitors are not allowed to store or use in their expositions or in the territory of the Exhibition Centre any combustible and radioactive substances, exploding materials, acids, poisons and other health harming substances. The Exhibitors are obliged to observe the technical, fire and safety regulations which are in force.

At the Exhibition Centre, ABF is not responsible towards the Exhibitors and their Co-exhibitors, or their assembly firms, for any losses, destruction or any damage concerning the exhibits, equipment and outfit of the stands, goods, packages, packing materials whatsoever, whether the loss, destruction or other damage occurred during the assembly, transportation or during the Fairs.

Article V. - INSURANCE

From the year 2006, the insurance of expositions is arranging during the fair automatically within the services provided by ABF, for the unified advantageous price CZK 650 (VAT not incl.)

The insurance is valid during the whole duration of fairs, including assembly and disassembly.

Information about the scope of the insurance:

- insurance of the material damage - in the widest possible scope, limit of the insurance benefit CZK 5 millions, co-insurance CZK 5.000,-
- insurance of the risk of larceny (theft, burglary), limit of the insurance benefit CZK 1 million, co-insurance CZK 5.000,-
- insurance of the plain theft, limit of the insurance benefit CZK 100.000,-, co-insurance CZK 5.000,-
- insurance of the responsibility for the damage of belongings and health of third persons, limit of the insurance benefit CZK 1 million, co-insurance CZK 1000,-

Insurance conditions relating to the negotiated kinds of the insurance:

- universal insurance conditions for the insurance of belongings VPPM 1/05
- universal insurance conditions for the insurance of the responsibility for the damage VPP OD 1/05
- additional insurance conditions for the insurance of exhibitions and the responsibility for the damage DPPVYZ MP 1/05

Article VI. - TECHNICAL AND FIRE REGULATIONS, ENERGY USAGE REGULATIONS AND DIRECTIVE FOR THE USE OF TEMPORARY ELECTRICAL INSTALLATIONS

During the time of the Fairs as well as during the assembly and dismantling works **smoking and naked flame handling is prohibited** in all of the indoor areas.

The Exhibitors are obliged to observe, during the assembly, in the course of the Fairs and during the dismantling, generally binding law regulations of the Czech Republic and the EU, as well as technical standards for the above mentioned areas including work safety regulations and handling all technical equipment. Furthermore, the Exhibitors are obliged to observe appropriate fire regulations valid for individual exhibition areas and the instructions of the authorised members of the fire assistant service and of the ABF staff. Temporary electrical devices must be in accordance with the ČSN 341090 standard and must comply with all other electro-technical regulations in force. The electrical installation works can only be carried out by a firm duly authorised to do so, i.e. possessing the "Certificate of Competence according to the Law No. 174/1968 Coll., Art. 4(f) and Art 3(2) of the ČUBP and ČBU Regulation No. 20/1979 Coll."

Article VII. - BASIC PRECONDITIONS FOR THE ERECTION OF THE STAND

The erection of the Stand is offered and carried out by ABF. The Exhibitors who will not make any use of this offer and who prefer to ensure the erections of their stands by themselves or through their agencies **are obliged to submit the ground plan and front view of the stand with the marking of dominant heights, as well as with the marking of power, water and sewerage system lines, for approval to ABF, not later than July 30, 2006** and to announce the name of the implementation firm. **The Exhibitors are obliged to maintain the raster of the exhibition area, i.e. they may not exceed the designated area with anything from the ground plan point of view and the same applies to the dominant heights which are shifted out (Important! - the roofs of outdoor stands generally exceed their ground plan).**

The Exhibitors are obliged to leave the exhibition area after the dismantling in the same conditions in which it was before the beginning of the assembly. Any destruction, exceeding pollution etc., will have to be paid for by the Exhibitor according to the real cost of the removal of damage (pollution).

Article VIII. - FINAL PROVISION

All complaints on the part of Exhibitors towards ABF during the assembly and in the course of the Fairs shall be produced in writing to the Managing Director of the Trade Fair Administration (ABF) or to an authorised representative before the end of the Fairs, or during the dismantling works until they are completed.

Any other claims on the part of Exhibitors towards ABF can be applied for within 2 weeks after the end of the Fairs. Any possible claims of the Exhibitors will cease to exist upon the expiration of 6 months after the end of the Fairs.

Article IX. - CLOSING DATE FOR APPLICATIONS AND ORDERS

The Binding Application, the Binding Order of Technical Services, the Order of Registration of Other Firms - Co-exhibitors and the Order of Additional Records into the Catalogue shall be sent to the address: ABF, a.s. Věletržní správa (Trade Fair Administration), Václavské nám. 29, 111 21 Praha 1 by **March 31, 2006** - we recommend that all correspondence be sent by registered mail.

number of connections _____

The firm implementing the stand shall be liable for the inspection of electrical installations.

We hereby declare that we have made ourselves familiar and agree without reservations with the ABF Technical Preconditions of the Participation in the group of the Fairs FOR ARCH 2006, which form an integral part of the Binding Application. We undertake to pay all of the advance invoices and the final invoice in due terms.

place, date _____

stamp, signature

Note: The application is only valid when the place, date, stamp and signature are given.

Article I. - TIME DATA

The Fairs will start on September 19, 2006 and end on September 23, 2006.
You will receive the assembly and dismantling instructions during the month of August 2006.
The Fairs will be open for the public: Tuesday – Friday from 10 a.m. to 6 p.m. and on Saturday from 10 a.m. to 4 p.m.

Article II. - EXHIBITION AREA

ABF leases:
indoor exhibition area without equipment with the options of the inlet of power supply, water and sewerage lines, telephone, connection to the Internet and cleaning services on the basis of orders. **The minimum depth of the expositions is 3 m.**
The minimum sizes of the exhibition areas are provided for in the Binding Application for the Participation of the Firm.
outdoor exhibition area in the designated free areas of the Exhibition Centre. The minimum sizes of the exposition in the outdoor area are 4 x 3 m, i.e. 12 m² or 20 m² (roof over the stand), respectively.

Height of halls, load of floors
It makes it possible for a limited number of expositions to erect double-floor stands as well as dominant heights. The effective height varies from 3.0 to 8.0 m. Maximum height of an exhibit for transportation to the halls is 3 m. Basic load capacity of floors is 250 kg/m².

On an extra order in the Binding Application it is possible to ensure individually the reinforcement of the floor up to a load capacity of 750 kg/m². Maximum weight of an exhibit is 2.5 t.

Article III. - TECHNICAL SERVICES

On the Exhibitor's order it is possible to provide the inlet of power supply, water and sewerage, telephone and cleaning services (once a day vacuum-cleaning and emptying of the waste basket) to all expositions in both indoor and outdoor areas.

The advance invoice for the ordered services will be sent before the beginning of the Fair and its settlement will be a necessary condition for the beginning of the assembly of the exposition. The final invoice, together with VAT and invoice deduction will only be sent after the finishing of the Fair.

Order of power supply
For the stands which are not ordered with ABF your own switchboard is presupposed - it should be adapted to the 5-wire distribution system, or the voltage system TNS 3L + N + PE, 50 Hz, respectively. Single-phase connection of the exposition is carried out through a usual plug of 230V/16A - L + N + PE, three-phase consumers must be fitted with a recommended ball plug of 400V/32 A - 3L + N + PE. The connection of larger power inputs will be carried out upon an agreement with ABF. Electrical equipment of Exhibitors which is not fitted with separate operation N and protecting PE (zero) wires, or which is not fitted with a protecting wire, without its featuring double insulation, or the wires of which do not have appropriate section, will not be allowed for the reason of the protection of visitors from electric accidents and for fire reasons. In the case of necessity it is possible to use the work of an electrician at a price of CZK 360.- per hour (each hour started is taken into account), which is to be paid immediately at the cash desk of the Trade Fair Administration.

The firm implementing the stand shall be liable for the inspection of electrical installations.

We ask the Exhibitors to consider their real demands for the power supply input. For the purpose of a more exact order we provide the following examples:
Illumination of a 9 m² stand about 0.5 kW, refrigerator 0.4 kW, kitchen complete set about 3.5 kW, coffee machine about 0.8 - 1.2 kW, fast water heating unit about 2 kW, two hot-plate cooker about 2 kW. These power inputs are only for your orientation - it always depends on the particular electrical appliance which is connected.

CAUTION! In the case you intend to use a refrigerator in your stand, we recommend to order the refrigerator circuit separately, as it will not be turned off overnight. The price does not include the power input of electrical energy. This power input must be included in the electrical power input order.

Order of water and sewerage
The connection of the sink, i.e. of an ordinary battery to the shut-off valve and of an ordinary siphon outlet with a 5/4" hose is included in the price of the "water inlet and sewerage". **The lease of the sink is not included in the price of water inlet and sewerage.** If you want to make a wider use of the plumber's service, you will be charged CZK 360 per hour (each hour started is taken into consideration) and you will pay this service at the cash desk of the Trade Fair Administration. Additional costs arising on the basis of installation of a connection point at a distance exceeding 10 m from the technical channel will be charged on an individual basis.

Connection to the INTERNET network
Connection to the INTERNET is implemented through a connection line to the local network "ETHERNET 10/100MB". The Exhibitor's PC must be equipped with the ETHERNET 10/100MB network card with a possibility of the RJ-45 connector connection. For the connection into the network it is necessary to set the acquisition of an IP address from the DHCP server. The allocation of fixed addresses is possible in exceptional cases for an additional fee and subject to a previous inspection by a technician of ABF. The Exhibitor will not pay any other telecommunication fees.

The Exhibitor is responsible for protection of the connected equipment from viruses, spyware, adware and other harmful programs. In the case of infection of the Exhibitor's equipment connected, the organiser is authorised to disconnect the connection line without any compensation until the harmful programmes are removed.

Technologies of carpet adhesives in halls
For the laying of carpets into expositions in halls, it is necessary to adhere to the following procedure :

First glue a masking – paper tape onto the concrete floor, and then an arbitrary two-side carpet tape. It is possible to buy the masking tape directly in the Exhibition Centre. The Exhibitor is obliged to hand over the exhibition area by the closing deadline of the dismantling work as absolutely empty and clean – in the condition in which it has been taken over. In the case of damage and contamination of the exhibition area, the Exhibitor is obliged to settle the damage incurred in full amount.

Other services
ABF will provide for working illumination, fire service, ordinary cleaning of the communication corridors, the establishment of dispatching and customs services, health service, insurance service, telephone and fax centre for the Exhibitors, press centre service, business centre, the Fair Protocol and catering facilities.

Article IV. - ERECTION OF STAND

On the basis of a separate order distributed by ABF together with the Binding Application, ABF will ensure the erection of a stand – exposition in both indoor and outdoor areas.

Article V. - TECHNICAL AND OPERATING PRECONDITIONS

The architectural realisation and the operation of the exposition must not disturb or limit other expositions.

The firms neighbouring with the rear or side walls whose height exceeds the height of the neighbouring stand are obliged to treat this wall in a neutral manner from the constructional and graphic points of view. The use of these raised walls for their own advertising purposes is unacceptable and if they do so, the firms will be forced to remove the advertisements of this type and to treat these areas in a neutral manner at their own expenses.

The outline of the exhibition stands must not exceed the outline of the leased exhibition area, which applies to the space above the ceiling structure of the stand as well.

Possible overhang of the collar or eye-catcher of the stand to the path is allowed on the basis of a preliminary approval given by ABF, if the minimum height of the bottom edge is 3 m, and it will be subject to the payment of CZK 1450.

Except for handling trucks, entry into the exhibition areas is prohibited for any means of transport and cars.

If the floor of the hall is damaged, the Exhibitor will be obliged to reimburse the damages to the full amount.

Smoking and naked flame handling is strictly prohibited in all of the indoor exhibition areas, any breach of this ban will result in a fine paid on site.

No electrical appliances may be left in operation without any control and unattended. When you are leaving the place, the appliances must be disconnected from the mains.

It is not allowed to hang any eye-catchers, flags, etc. on the structure of the halls with the exception of the cases pre-discussed with ABF and subject to a payment.

During the assembly it is forbidden in the indoor premises to cut and grind any building elements, which causes excessive pollution and dust (plasterboard, tile materials, fibreboard and other similar materials).

The stand must not touch the structure, walls and roof of the exhibition halls with any of its parts. The distance between the highest point of the stand and the hall roof must be at least 70 cm.

It is forbidden to discharge the remains of paints and other toxic substances which could pollute or otherwise endanger the environment into the sewerage, sinks and basins. The Exhibitors or the firms authorised by the Exhibitors are obliged to take these substances away and ensure their disposal on their own expenses.

Storage of any materials in technical corridors (in particular behind the rear wall of the stand) is unacceptable for fire, safety and operational reasons. The storage of the packages, including their removal and return delivery to the stand can be ordered from the contractual forwarding service of ABF.

During the Fairs it is permitted to perform audio-visual, acoustic, musical, dancing and other productions for the time not exceeding 8 minutes once an hour, and only provided that the other Exhibitors will not be disturbed by the operation of these facilities. If this condition is breached, the Exhibitor will have to pay a fine amounting to CZK 5,000.- and in the case of repeated breach it will be forbidden for the breaching Exhibitor to operate all such productions.

The exhibits which will be presented in the operation can only be serviced by the persons authorised thereto. The exhibits to be presented must be secured by the Exhibitor in such a way that no third party could handle them wilfully.

Except for the prescribed working business hours of the Fairs and permitted time interval for the supplying of the stands it is forbidden to stay in the exhibition areas. Please, respect for this reason the instructions of the Security Service and of the ABF staff.

By the deadline of disassembly works the Exhibitor (or the assembly firm of the Exhibitor) is obliged to hand over the leased exhibition area empty and in the conditions in which it was taken over, i.e. also the floor covering (carpets, PVC) must be removed as well as the sticking carpet tapes, such a removal being carried out at the expenses of the Exhibitors. Should the exhibition area be damaged (by boring, cutting, breaking, excessive polluting, etc.), the Exhibitor will be obliged to reimburse the damages in full.

If the deadline for the clearing of the exhibition area fails to be observed, a penalty amounting to CZK 5000 per m² of the non-cleared area will be charged. In the necessary case the exposition will be cleared by ABF at the expense of the Exhibitor. The risks associated with the clearing shall be borne by the Exhibitor.

The placement of billboards, eye-catchers, banners as well as the distribution of printed and other materials out of the stand area is permitted only for consideration after prior negotiations with the ABF Trade Fair Administration in writing.

Article VI. - HANDING OVER OF THE BACKGROUNDS FOR THE REALISATION OF TECHNICAL CONNECTIONS AND STANDS

The Exhibitors who order the erection of the stand from ABF will send their orders within the term provided for in the Stand Order. Any changes relating to the Order of Technical Services, construction and equipment of stands required by the Exhibitor additionally after the term of commencement of the assembly will only be managed after the fulfilment of the properly ordered work and services towards the other Exhibitors. These additional orders of work and services can be charged by ABF with a surcharge amounting to as much as 100% of the price calculated. The payment shall be made by the Exhibitor in cash on site.

The Exhibitors who ensure the erection of the stand on their own or through an advertising or realisation agency will send to ABF and within the term provided for in the Order Catalogue of Services **the design of the stand for approval** (in the front view and ground plan) where all possible dominant heights and eye-catchers, including the stand orientation within the framework of the ordered area will be drawn by means of **the location dimensioning of the inlets of power supply, water and sewerage including the name of the implementation firm. For double-floor expositions, a structural report is required!**

In the case that the Exhibitors fail to send appropriate backgrounds within the requested terms, they will expose themselves to the danger of possible difficulties during the realisation of the stands and possibly to additional costs connected with the displacement of the inlets of power supply, water and sewerage.

**Note: Without your stating the place, date, stamp and signature the application is not valid
The documentation and samples will not be returned if not explicitly requested**

The exhibitor is obliged to reimburse the registration fee CZK 3000,- (+ VAT) for every single entered exhibit, based on the invoice issued by ABF.

There are evaluated the exhibits, which bring progress in the production base of building engineering and architecture or in the construction technology. The exhibits should be comparable by their parameters with a world level or should govern the trend of development in the branch.

ABF, a.s. is enunciator of the competition.

The exhibits will be shown on the trade fair FOR ARCH organized by ABF a.s. in the Prague exhibition area.

The basic criterion's:

Technical solution, non-traditional idea, extraordinary quality for acceptable price, ecological viewpoints, chemical and biological non-obnoxiousness, energy saving and the general properties characterising the provident relationship to the environment.

The sale or dealer organisation which would exhibit on the trade fair is allowed to register the product for the competition on behalf of the producer, when he agrees.

GRAND PRIX can be awarded only once to any exhibit during the International building trade fairs FOR ARCH.

The exhibitor will deliver the documentation:

- technical parameters of the product including the decisive parameters
- valid declaration about the conformity according to the valid building legislation

Further within the business conditions especially:

- the price of product (price for the product, eventually for the technology, material)
- delivery date of the product

All the documentation will be rendered in time, at latest till May 31, 2006.

In case of miscarriage of the documentation, the product could not be assessed by jury in advance, and therefor nominated for GRAND PRIX.

The jury consists of specialists working in the appropriate branch. The jury members and the chairman are independent personnel's, they are not employed in the organising company of the trade fair.

Jury is entitled to request additional information about the evaluated exhibit in process of evaluation, not only from the exhibitor but also from the other sources. The jury governs independently the way of evaluation and seriousness of the individual affordable information about the exhibit registered.

Jury awards at maximum 5 GRAND PRIX and 10 honourable appreciation.

The course of the jury evaluation it is not a public issue and also is not possible any abjuration against verdict.

The basic criterion's of evaluation

The jury evaluates the parameters of products in advance, on basis of the handed over documentation (attests, certificates, catalogue sheet, prospects, branch documentation, price list etc.). Directly on the fair, there is verified fulfilling the criterion's and the visual characteristic of the exhibits from the shortlist of the former selection.

The professional jury presents the list of exhibits proposed for the appreciation to the enunciator of the competition for the approval.

For the confession of the nomination, the requirement of presentation of the product (technology, material) in advance (in case of the request of jury) and the delivery of all background materials in time.

Enunciator of the competition is not obligated to rationalise the jury verdict. There is not any abjuration against the jury verdict.

The results of competition will be officially presented on the ceremonial evening. The results of competition will be officially presented on the ceremonial evening of trade fair FOR ARCH, where also prizes GRAND PRIX will be handed over.

The exhibits awarded will be marked immediately after announcing the results of competition. The awarded exhibits with the honourable mention will obtain the price in the 2nd day of the fair, right on their own fair exposition.

The list of the registered exhibits will be presented in the Fair Catalogue Guide, Catalogue of the Exhibition, in periodicals Stavěbní listy and Forum architektury a stavitelství and also on internet pages www.forarch.cz, www.abf.cz

Enunciator reserves the right to react on the technical and organisational issues, which could lead to changes in time terms or course of the competition. To the all registered sides there is guaranteed the timeous information.

The closing day of the application form for GRAND PRIX competition is March 31, 2006

ALSO THE STAND SUPPORTS CORPORATE STYLES

During preparation of the exposition we will offer you professional consultations from an experienced expert with a long-term practice in the exhibition industry. The exposition will be designed on the basis of your requirements concerning the image of your firm.

The individual approach and flexibility on our part are preconditions of our mutual cooperation.

Our offer therefore includes also free-of-charge advisory activities focused on the forms of trade fair presentations.

The agreement on the price charged for the designing of the stand will depend on the implementation work demands, quantity and types of the materials used, extent of architect's services and repeatability of the exposition.

In the case of a repeated implementation we offer interesting discounts. The FOR ARCH Fair need not be the first one at which an exposition arising from the mutual cooperation between you and ABF will appear.

If you are interested in the implementation and an architectonic design of an atypical stand through ABF, a.s., please do not hesitate and contact us.

Order of standardised stands for the covered area

It's price contains:

- circumferential walls of white panels and partition walls of small store rooms
- ceiling raster
- carpet - grey
- collar for the identification of exposition - height 30 cm (according to the length of the front side)
- 2 to 6 point lighting fittings according to the stand size (without power supply inlet)
- 2 power sockets for 220 V (without power supply inlet)
- Store room of the area 9m² in teh arrangement 1 x 1 m with a cupboard (without power supply inlet)
- store room of the area of at least 12 m² in the arrangement of 1 x 2 m with a cupboard with shelves, door and 1 ceiling fitting (without power supply inlet)
- store room of the area of at least 18 m² in the arrangement of 2 x 2 m with a cupboard with shelves, door and 1 ceiling fitting (without power supply inlet)

The ground plans of the standardised stands are specified on the reverse of this sheet.

It is not possible to change or add anything to the basic equipment of standardised stands, it is, however, possible to order movables and other equipment.

Sizes and prices of standardised stands of type

Type A	3 x 3 m	price	CZK	7 500
Type B	3 x 4 m	price	CZK	10 000
Type C	3 x 5 m	price	CZK	12 000
Type D	4 x 4 m	price	CZK	13 000
Type E	5 x 5 m	price	CZK	20 600
Type F	4 x 6 m	price	CZK	20 200
Type G	4 x 5 m	price	CZK	16 400
Type H	3 x 6 m	price	CZK	15 200

Company: _____

Hall no. _____ Sector _____ Stand no. _____

We definitely order the basic construction of an individually designed stand the dimensions of which are _____ m x _____ m according to the layout drawn on the reverse side of this order.

The basic construction contains: 2-3 circumferential walls, ceiling raster, shield of the height of 30 cm on the front part.

The price of the basic construction is CZK 990/m² for constructions up to 30 m² inclusive, and CZK 890/m² for constructions above 30 m².

Over the limit of the basic construction we order the following additional items of the assembly system:

Item	CZK/unit	Number
wall panel, white 100 x 250	250	_____
graphic panel, 100 x 250 (it is possible to stick items on it)	350	_____
wall glass, 100 x 250	430	_____
wing door	1300	_____
rolling door	980	_____
curtain (EUR for 1 linear metre)	90	_____
carpet, grey (EUR for 1 m ²)	170	_____
carpet, of another colour (EUR for 1 m ²), specify colour _____	200	_____
shield, height 30 cm (EUR for 1 linear metre)	70	_____
lower ceiling, white (EUR for 1 m ²)	210	_____
lower ceiling, of textiles (EUR for 1 m ²)	70	_____
lower ceiling, of a grid type (EUR for 1 m ²)	270	_____
illuminating lower ceiling, fluorescent lamp type (EUR for 1 m ²)	300	_____
display case, glassed 100 x 100 x 250 with illumination	1530	_____
display case, glassed 100 x 50 x 250 with illumination	1250	_____
cupboard with five shelves, (mounted into the stand structure)	550	_____
point lighting fitting 60 - 100 W	110	_____
halogen spotlight 300 W	150	_____
halogen spotlight 500 W	160	_____
triple power socket	70	_____
self-standing panel 100 x 250 (with base 100 x 50 x 50 and with a collar 100 x 30)	950	_____

We require that the stand should be equipped with movables

In the case of YES, please fill in: Order of movables and other equipment.

All prices are without VAT.

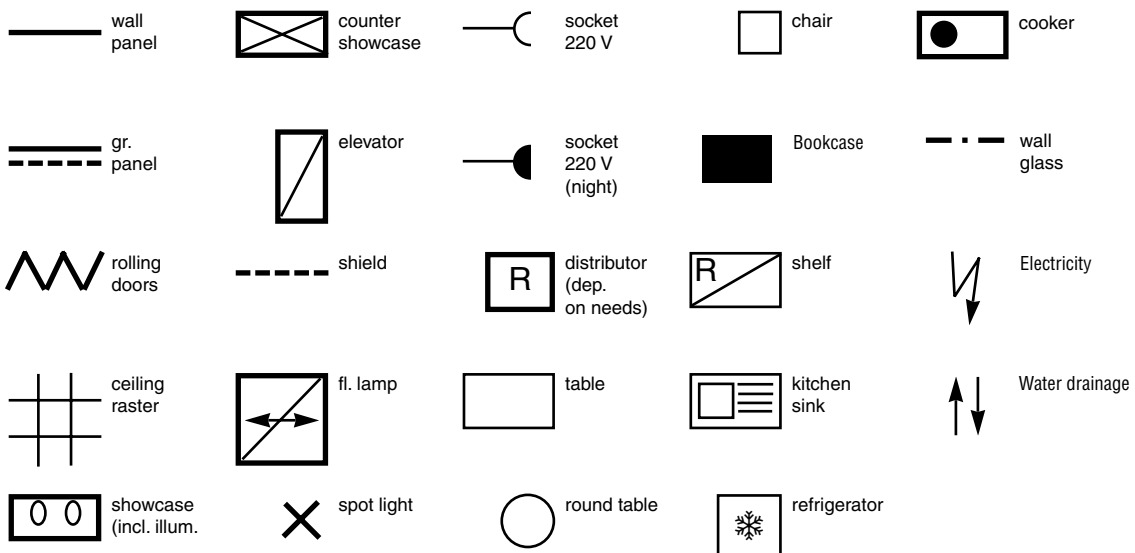

place, date _____

_____ stamp, signature

Please send the filled-in order for the exposition implementation together with the Binding Application

Note: The order is not valid unless the place, date, seal and signature are filled in

Please, draw in the following raster your draft ground plan of the stand. Use the signs described below for the identification of the location of independent constructional items and equipment.

8

Company: _____

Hall no. _____ Sector _____ Stand no. _____

We definitely order the construction of an assembled stand ("montistand") for the outdoor area including the architectural solution according to the layout drawn on the reverse side of this order, with the basic dimensions:

- 3 x 3 m (roof dimension 4 x 4 m - it cannot exceed the dimensions of the area ordered)
at the basic price of **CZK 22 000** **YES** **NO**

- 4 x 4 m (roof dimension 5 x 5 m - it cannot exceed the dimensions of the area ordered)
at the basic price of **CZK 40 000** **YES** **NO**

The construction includes: platform (12 cm), grey carpet, circumferential walls (possibly wall glass) and door, roof including the ceiling structure, ceiling raster including the ceiling fillers, ceiling illumination and a power supply socket. The power supply inlet is to be ordered separately as it is not included in the price.

Any enlargement of the assembled stand is only possible in modules of 3 x 3 or 4 x 4 and in such a case each m² of the area will be charged at CZK 2500

We definitely order a construction of the enlarged assembled stand ("montistand") the total dimensions of which are:

_____ m x _____ m

We require movables equipment

In the case of YES, please fill in: Order of movables and other equipment.

We enclosure the location of our montistand in the frame of complete ordered outdoor area:

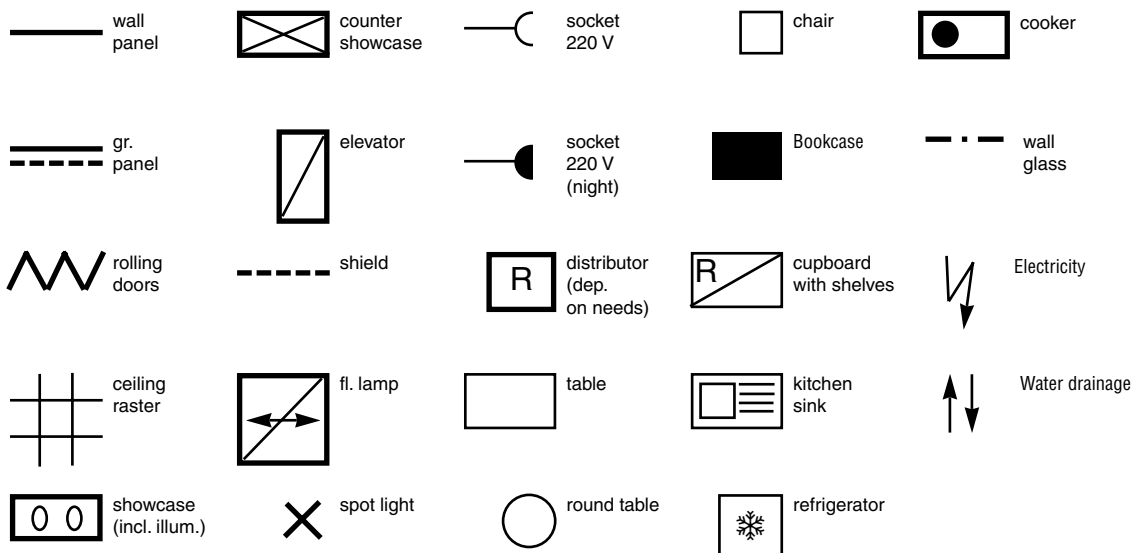

place, date _____

_____ stamp, signature

Please send the filled-in order for the exposition implementation together with the Binding Application

Note: The order is not valid unless the place, date, seal and signature are filled in

Please, draw in the following raster your draft ground plan of the stand. Use the signs described below for the identification of the location of independent constructional items and equipment.
